

Leadership Development Teams Monthly Report

Explanation:

As a member of Goju Karate Center's Leadership Development Teams, students are expected to practice the tenets of Leadership, Service, Excellence and Adventure in their everyday lives. One of the driving forces behind the Leadership Development Teams is to encourage habits such as self-direction and self-determination so students learn to 'write their own ticket'. Ideally, this monthly exercise will help students recognize where and when they are already practicing our four tenets. This exercise will also help them to step up their efforts when they recognize that they could be taking action more often. There are many other benefits to this exercise, such as community building, health and fitness and networking.

Directions:

During the month, perform at least one act of each of the following: Leadership, Service, Excellence and Adventure. In the spaces provided below, write a brief explanation of what you did, scenario, etc., and be prepared to share your work with everyone else at the combined team meeting each month. Make sure to integrate the leadership traits and principles in your actions and written explanations.

Leadership

Service

Excellence

Adventure
